ABOUT LUMAY

BUILT ON TRUST. POWERING THE AUTONOMOUS WORKFORCE BEHIND EVERY BUSINESS.

LuMay is an enterprise AI company helping organizations turn high-value business workflows into secure, governed, production-ready AI solutions. Powered by a reusable AI core, deep engineering expertise, enterprise integrations, human oversight, and measurable execution, LuMay helps customers move from use case to production faster, scale with confidence, and create compounding business value over time.

LuMay GOVERNED AI CORE

Built to Scale. Designed for Real Business Outcomes.

Powering Lexintis, Voxentis, Custom Solutions, AI Engineering Services, and Corporate Training & Enablement.

LuMay AI | Everything AI. One Platform.

Lexintis

AI FOR BUSINESS WORKFLOWS

Pre-built. Configurable. Scalable.

- Workflow Automation
- Process Intelligence
- Document Workflows
- Knowledge Intelligence
- Compliance & Risk
- Analytics & Insights

Voxentis

VOICE AGENTS FOR BUSINESS WORKFLOWS

Natural conversations. Real actions.

- Inbound & Outbound Calls
- Customer Support & FAQs
- Scheduling & Reminders
- Payments & Transactions
- CRM & Business Integrations
- Human Handoff

AI Engineering Services

DESIGN · BUILD · DEPLOY

From strategy to production-ready execution.

- Strategy & Architecture
- AI / Agent Engineering
- Integrations & RAG
- Deployment & Optimization
- Model Flexibility
- Reuse & Scale

Corporate Training & Enablement

PRACTICAL AI ADOPTION

Build skills. Drive real impact.

- Executive AI Readiness
- Role-Based Learning
- Hands-on Workshops
- Adoption Playbooks
- Responsible AI Practices
- Ongoing Enablement

Build Your Own

CUSTOM. TAILORED. READY TO SCALE.

Custom agents, workflows, products, and platforms built for your unique business needs.

- Custom Agents
- Tailored Workflows
- AI Products & Platforms
- Integrations & Connectors
- Industry-Specific Solutions

THE LUMAY CORE ENGINE — SIX LAYERS

A reusable foundation for secure, intelligent, and scalable execution.

01	**Interface**	Voice, Chat, Web, API
02	**Intelligence**	RAG, Reasoning, Knowledge
03	**Orchestration**	Workflows, Multi-Agent, HITL
04	**Integration**	Systems, Data, Applications
05	**Governance**	Security, Access, Audit, Guardrails
06	**Analytics**	Quality, Adoption, Cost, ROI

THE LUMAY ADVANTAGE

- **Faster** — From idea to impact
- **Cost Effective** — Do more with less
- **Compound ROI** — Scale value over time
- **Built-in Trust** — Security, governance and human oversight
- **Works Across All Business Workflows** — Any industry. Any LLM. Any environment.

Avoid Experimenting. | Partner with a proven, governed platform to turn your ideas into real business outcomes.

Your One Stop Partner for Custom, Tailored Agents, Workflows, **Products, and Platforms.**

INTELLIGENT AI SOLUTIONS SUITE · 10 PRODUCTION-READY AGENTS

COMPLETE AGENT SUITE — FROM VOICE TO COMPLIANCE

Production-ready, enterprise-scale, and deployable within weeks. Each agent is connected, context-aware, and integrates with your existing systems.

Voice Agents
Real-time AI phone agents — inbound & outbound, 24/7, system-integrated, no hold times.

Insight Agents
RAG-powered virtual agent answers from your org's knowledge, systems, and data instantly.

Workflow Automation Agents
Low-code orchestration to design, automate & manage AI-driven workflows end-to-end.

CRM Agents
AI for Salesforce & Dynamics365 — automates workflows, insights, and customer engagement.

Forecasting Agents
Transforms enterprise data into forecasts, market intelligence & actionable decisions.

Anomaly Agents
Real-time monitoring, predictive alerts & performance intelligence at enterprise scale.

Legal Agents
Contract analysis & legal document intelligence — 60%faster review, lower risk.

OCG Compliance Agents
Validates outside counsel invoices against approved billing guidelines — audit-ready.

QMS Compliance Agents
Continuous compliance monitoring, automated docs & enterprise process assurance.

Translation Agents
AI translation & localization with OCR. 85% cost reduction.140 pages in 2 minutes.

Website Agents
Conversational Navigation

FIVE FORCES THAT MAKE LUMAY THE UNFAIR ADVANTAGE

CORE STRATEGIC PILLARS

Modular Agent Factory

A growing library of plug-and-play agents that slash implementation time and drive compounding cost efficiency at scale.

Deep Workflow Embedding

Mission-critical integrations create deep data gravity - turning LuMay into the AI platform that runs at the core of your business.

End-to-End Ownership

Full lifecycle ownership - from strategy through real-time operation - with governance built into every layer, not added as an afterthought.

Intelligence Flywheel

Cross-platform usage data continuously sharpens every agent - a self-reinforcing flywheel that builds a competitive edge no competitor can replicate from scratch.

Platform & Ecosystem Expansion

Open APIs let partners build on our foundation - creating network effects, accelerating global reach, and expanding the platform's value with every new integration.

THE LUMAY DIFFERENTIATOR

WHY LUMAY: TRUSTED AI EXECUTION THAT COMPOUNDS VALUE

Most AI tools automate a few tasks or cover parts of a workflow. Our Platform is designed around how your teams actually work — measured by outcomes that matter.

One Complete AI Execution Layer

Agents run workflows, share context, and improve across the business — not isolated automation, but end-to-end execution with measurable impact.

Governed & Auditable by Default

Security, RBAC, tenant isolation, audit trails, and HITL gates are built in — not retrofitted. Passes procurement, legal, and InfoSec from day one.

Agents That Evolve & Compound

Every deployment makes agents smarter. The platform gets sharper with every workflow it runs — building a compounding edge that widens with time.

Production-Grade From Day One

LuMay ships live enterprise agents, not proofs of concept. Every release is tested, governed, and built to scale — weeks not quarters.

Deep Workflow Embedding

Agents operate inside your systems, connected to your data, logic, and teams. The deeper the integration, the greater the value and switching cost.

Outcome Driven, Not Activity

Designed around real workflows. Deployed in weeks. Measured by cost reduction, productivity gains, and revenue growth — not dashboard vanity metrics.

SERVICES · EXECUTION SUPPORT · PARTNERSHIPS · ACADEMY

FROM STRATEGY TO SCALED AI IMPACT

LuMay AI services end-to-end — advisory, engineering, implementation, adoption, and managed optimization.

1 AI Strategy & Advisory

Use cases, roadmap, ROI, maturity assessments — align on where AI delivers the strongest impact first.

2 Implementation

Configure, integrate, UAT, launch — domain-specific agents tailored to your workflows, systems, and operating model.

3 AI Engineering

Connectors, RAG architecture, custom agent dev, orchestration — scalable, secure, production-ready AI systems.

4 Adoption & Training

Safe, effective daily use — executive readiness, applied labs, workforce enablement across every level.

5 Managed Optimization & Support

Monitor cost, quality, ROI — continuously improve, expand use cases, and scale AI across functions.

Partnership Model

Technology Partners

Integrate your platform with LuMay's agent ecosystem.

Implementation Partners

Deliver LuMay solutions to your enterprise clients.

Solution Providers

Deliver LuMay solutions to your enterprise clients.

Co-Build Partners

Co-design new agentic use cases together.

Channel & Community

Resell, refer, and grow the ecosystem.

LuMay AI | Everything AI. One Platform.

Our Culture

A strong vision and clear strategy will only succeed if supported by active, consistent, and inspiring leadership. Leaders are not just decision makers—they are stewards of direction and conduits of passion.

Our Commitment

LuMay builds secure, scalable enterprise AI agents and intelligent workflows that create real value for organizations. With deep engineering excellence and end-to-end execution, we design, deploy, and optimize production-ready AI systems that strengthen operations, improve decision-making, and deliver measurable impact as clients grow.

FOUNDER STORY · THE ORIGIN OF LUMAY

BUILT FROM A CONVICTION, NOT A TREND

"Every enterprise I worked with had the same problem — dozens of tools, no connectors, AI projects that never reached production. I built LuMay INC. to solve that permanently."

After decades in enterprise systems and AI architecture, Palani founded LuMay on a single conviction: that the Agentic AI era required a fundamentally different kind of company — one that doesn't just sell software, but owns the outcome end-to-end.

LuMay was engineered from day one with a compounding architecture. Every connector built for one client becomes reusable for the next. Every agent deployed feeds the intelligence flywheel. Every engagement strengthens the platform for all.

The result is not a product company — it is an AI Factory. One where the economics improve with every deployment, where governance is structural not optional, and where clients stop experimenting and start compounding.
