ABOUT LUMAY

BUILT ON TRUST. POWERING THE AUTONOMOUS WORKFORCE BEHIND EVERY BUSINESS.

LuMay builds secure, production-ready AI agents and workflow automation for any industry, powered by a reusable core platform, deep engineering expertise, and speed of execution. With security, governance, and responsible AI built into every step, organizations can launch faster, scale confidently, and turn AI ambition into measurable business value in weeks.

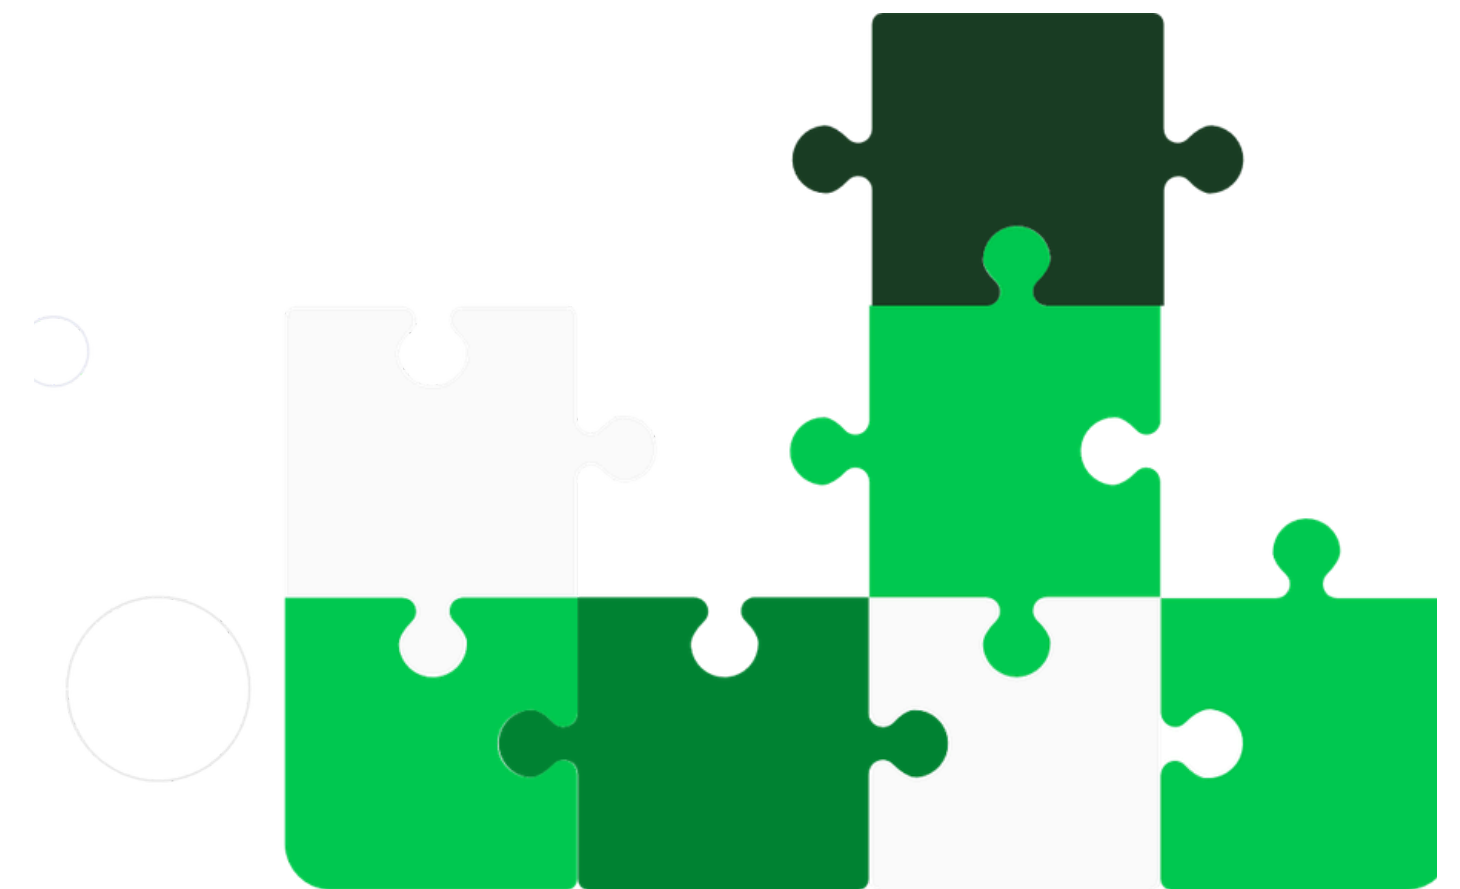

OUR VISION

ONE VISION. ONE PLATFORM. COMPLETE AI EXECUTION.

“To make intelligent, autonomous systems a foundational layer of every organization — enabling continuous execution, faster decisions, and scalable growth.”

LuMay is the only platform that brings together autonomous AI agents, enterprise engineering, implementation operations, and human enablement — in one integrated system. Strategy to scale. One partner. Zero gaps.

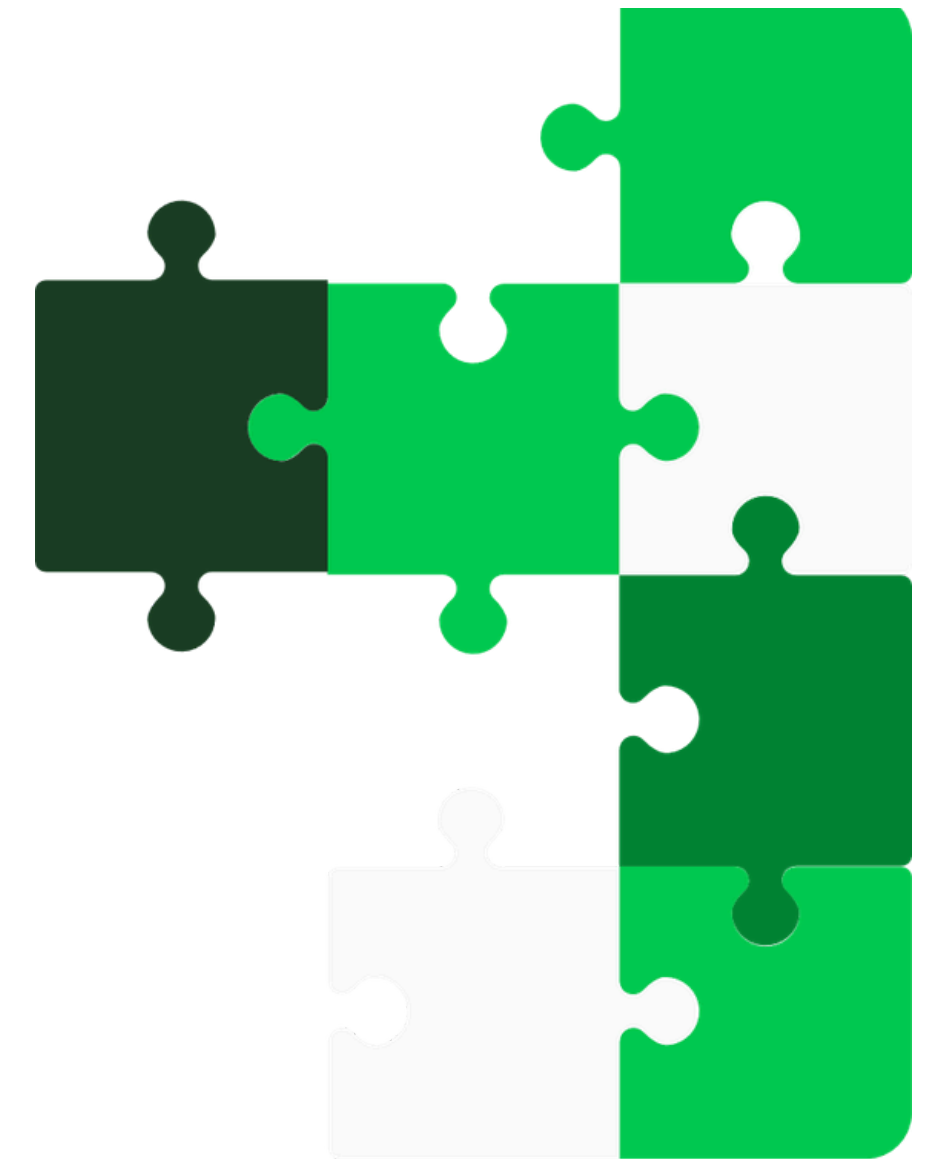

OUR MISSION

TO BE THE MOST TRUSTED AGENTIC AI PLATFORM

“To be a trusted, world-class AI partner enabling organizations to embed intelligent systems with confidence and long-term impact.”

We believe the Agentic AI era is not about replacing people — it is about amplifying what organizations can achieve. Every system we build is grounded in real business context, governed from day one, and designed to compound in value over time.

ONE UNIFIED PLATFORM
to move from AI ambition
to trusted, measurable
production value with a
faster path to maximum
ROI.

LuMay Agentic AI Platform

LuMay AI Solutions Platform

Agents do the work · platforms package them · the Core Engine runs it all

Everything AI.
One Platform.

PLATFORMS & THE AGENTS THEY RUN

All platforms & Agents are built on the Core Engine Platforms

Core Engine - Six-Layer Platform

Secure execution foundation - cloud-agnostic, request flows top to bottom

- 01 Interface**
Voice, Chat, Teams, Web, API
- 02 Intelligence**
RAG, Reasoning, Classification
- 03 Orchestration**
Workflow, Multi-agent, HITL
- 04 Integration**
Salesforce, SQL, ServiceNow
- 05 Governance**
RBAC, Audit, Guardrails, PII
- 06 Analytics & ROI**
KPIs, Quality, Cost, ROI

OUR OFFERINGS

AUTONOMOUS AI SOLUTIONS ACROSS DOMAINS

We deploy AI agents that plug into your tools, helping small teams and global enterprises automate work, lower costs, and focus on your business growth.

01

AI Platform

One platform. Many agents. One execution layer.

Agent Factory • Core Engine • Connectors & Adapters • Governance • Analytics & ROI
Explore LuMay Platform

02

AI Products

Production-ready AI agents for real business workflows.

Voice Agents • Insight Agents • CRM Agents • Workflow Agents • Forecasting & Anomaly • Compliance, Legal & Translation

03

AI Services

Strategy, engineering, and execution support.

AI Strategy & Advisory • Implementation • AI Engineering • Adoption & Training • Managed Optimization & Support

04

AI Academy & Labs

Build AI-ready teams. Turn learning into adoption.

Training & Labs • AI Adoption • Workforce Enablement • AI Education • Innovation Programs

05

Partnerships

Build, deliver, and grow together.

Technology Partners • Implementation Partners • Solution Providers • Co-Build Partners • Channel & Community Partners

06

Community - 1% Giving Back

Expanding access to practical AI learning.

Mentorship • Open Learning • Community Programs • Talent Development • AI Education
Explore Community Programs

SOLUTIONS

FOUR PACKAGED PLATFORMS. ONE COMPOUNDING ENGINE.

Each platform is a focused AI lane — Intelligence · Automation · Predict — deployed in days, scaling to enterprise in weeks.

AI VOICE PLATFORM	AI LEGAL PLATFORM	AI CRM PLATFORM	CUSTOM PLATFORM
Voice (Voxentis)	LegalPro	CRMPro	Custom AI
Live in days. Scale across calls.	Built for in-house & AmLaw teams.	Works inside Salesforce & Dynamics.	Any domain. Any industry.

INTELLIGENT AI SOLUTIONS SUITE · 10 PRODUCTION-READY AGENTS

COMPLETE AGENT SUITE — FROM VOICE TO COMPLIANCE

Production-ready, enterprise-scale, and deployable within weeks. Each agent is connected, context-aware, and integrates with your existing systems.

Voice Agents

Real-time AI phone agents — inbound & outbound, 24/7, system-integrated, no hold times.

Insight Agents

RAG-powered virtual agent answers from your org's knowledge, systems, and data instantly.

Workflow Automation Agents

Low-code orchestration to design, automate & manage AI-driven workflows end-to-end.

CRM Agents

AI for Salesforce & Dynamics365 — automates workflows, insights, and customer engagement.

Forecasting Agents

Transforms enterprise data into forecasts, market intelligence & actionable decisions.

Anomaly Agents

Real-time monitoring, predictive alerts & performance intelligence at enterprise scale.

Legal Agents

Contract analysis & legal document intelligence — 60% faster review, lower risk.

OCG Compliance Agents

Validates outside counsel invoices against approved billing guidelines — audit-ready.

QMS Compliance Agents

Continuous compliance monitoring, automated docs & enterprise process assurance.

Translation Agents

AI translation & localization with OCR. 85% cost reduction. 140 pages in 2 minutes.

Custom AI Agents

Domain-Specific AI for Your Business

THE LUMAY DIFFERENTIATOR

WHY LUMAY: TRUSTED AI EXECUTION THAT COMPOUNDS VALUE

Most AI tools automate a few tasks or cover parts of a workflow. Our Platform is designed around how your teams actually work — measured by outcomes that matter.

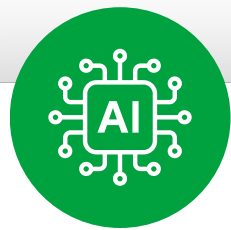

One Complete AI Execution Layer

Agents run workflows, share context, and improve across the business — not isolated automation, but end-to-end execution with measurable impact.

Governed & Auditable by Default

Security, RBAC, tenant isolation, audit trails, and HITL gates are built in — not retrofitted. Passes procurement, legal, and InfoSec from day one.

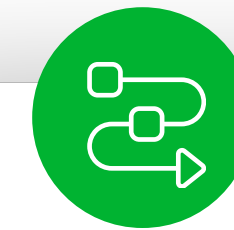

Agents That Evolve & Compound

Every deployment makes agents smarter. The platform gets sharper with every workflow it runs — building a compounding edge that widens with time.

Production-Grade From Day One

LuMay ships live enterprise agents, not proofs of concept. Every release is tested, governed, and built to scale — weeks not quarters.

Deep Workflow Embedding

Agents operate inside your systems, connected to your data, logic, and teams. The deeper the integration, the greater the value and switching cost.

Outcome Driven, Not Activity

Designed around real workflows. Deployed in weeks. Measured by cost reduction, productivity gains, and revenue growth — not dashboard vanity metrics.

THE LUMAY DIFFERENTIATOR

THE LUMAY ADVANTAGE VS. ALTERNATIVES

Build Scalable, Secure AI Systems.

Point-tool AI

Single workflow · No governance · Vendor lock

IT Integrator

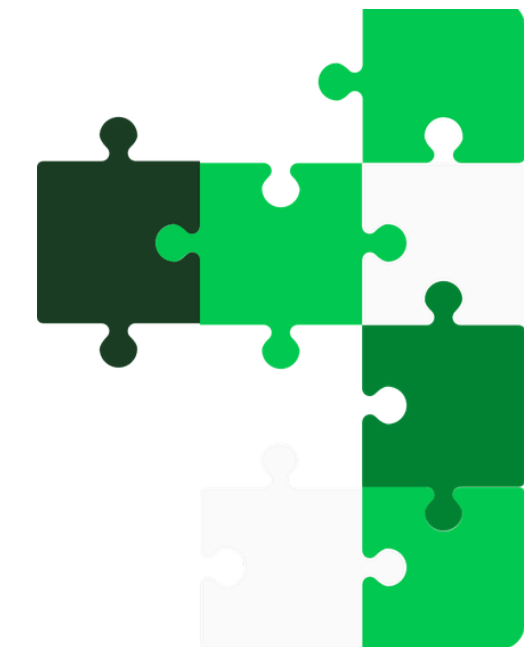

Long timelines · Custom builds · No AI flywheel

DIY / Build

12-18 month ramp · Massive engineering cost · No reuse

LuMay

Full lifecycle · Governed · Compounding platform

MEASURABLE RESULTS

2-4 Weeks

Live deployment

75%

Workflow cost
reduction

85%

Translation cost
savings

3×

Volume, same
team size

FIVE FORCES THAT MAKE LUMAY THE UNFAIR ADVANTAGE

CORE STRATEGIC PILLARS

01 Modular Agent Factory

A growing library of plug-and-play agents that slash implementation time and drive compounding cost efficiency at scale.

02 Deep Workflow Embedding

Mission-critical integrations create deep data gravity - turning LuMay into the AI platform that runs at the core of your business.

03 End-to-End Ownership

Full lifecycle ownership - from strategy through real-time operation - with governance built into every layer, not added as an afterthought.

05 Platform & Ecosystem Expansion

Open APIs let partners build on our foundation - creating network effects, accelerating global reach, and expanding the platform's value with every new integration.

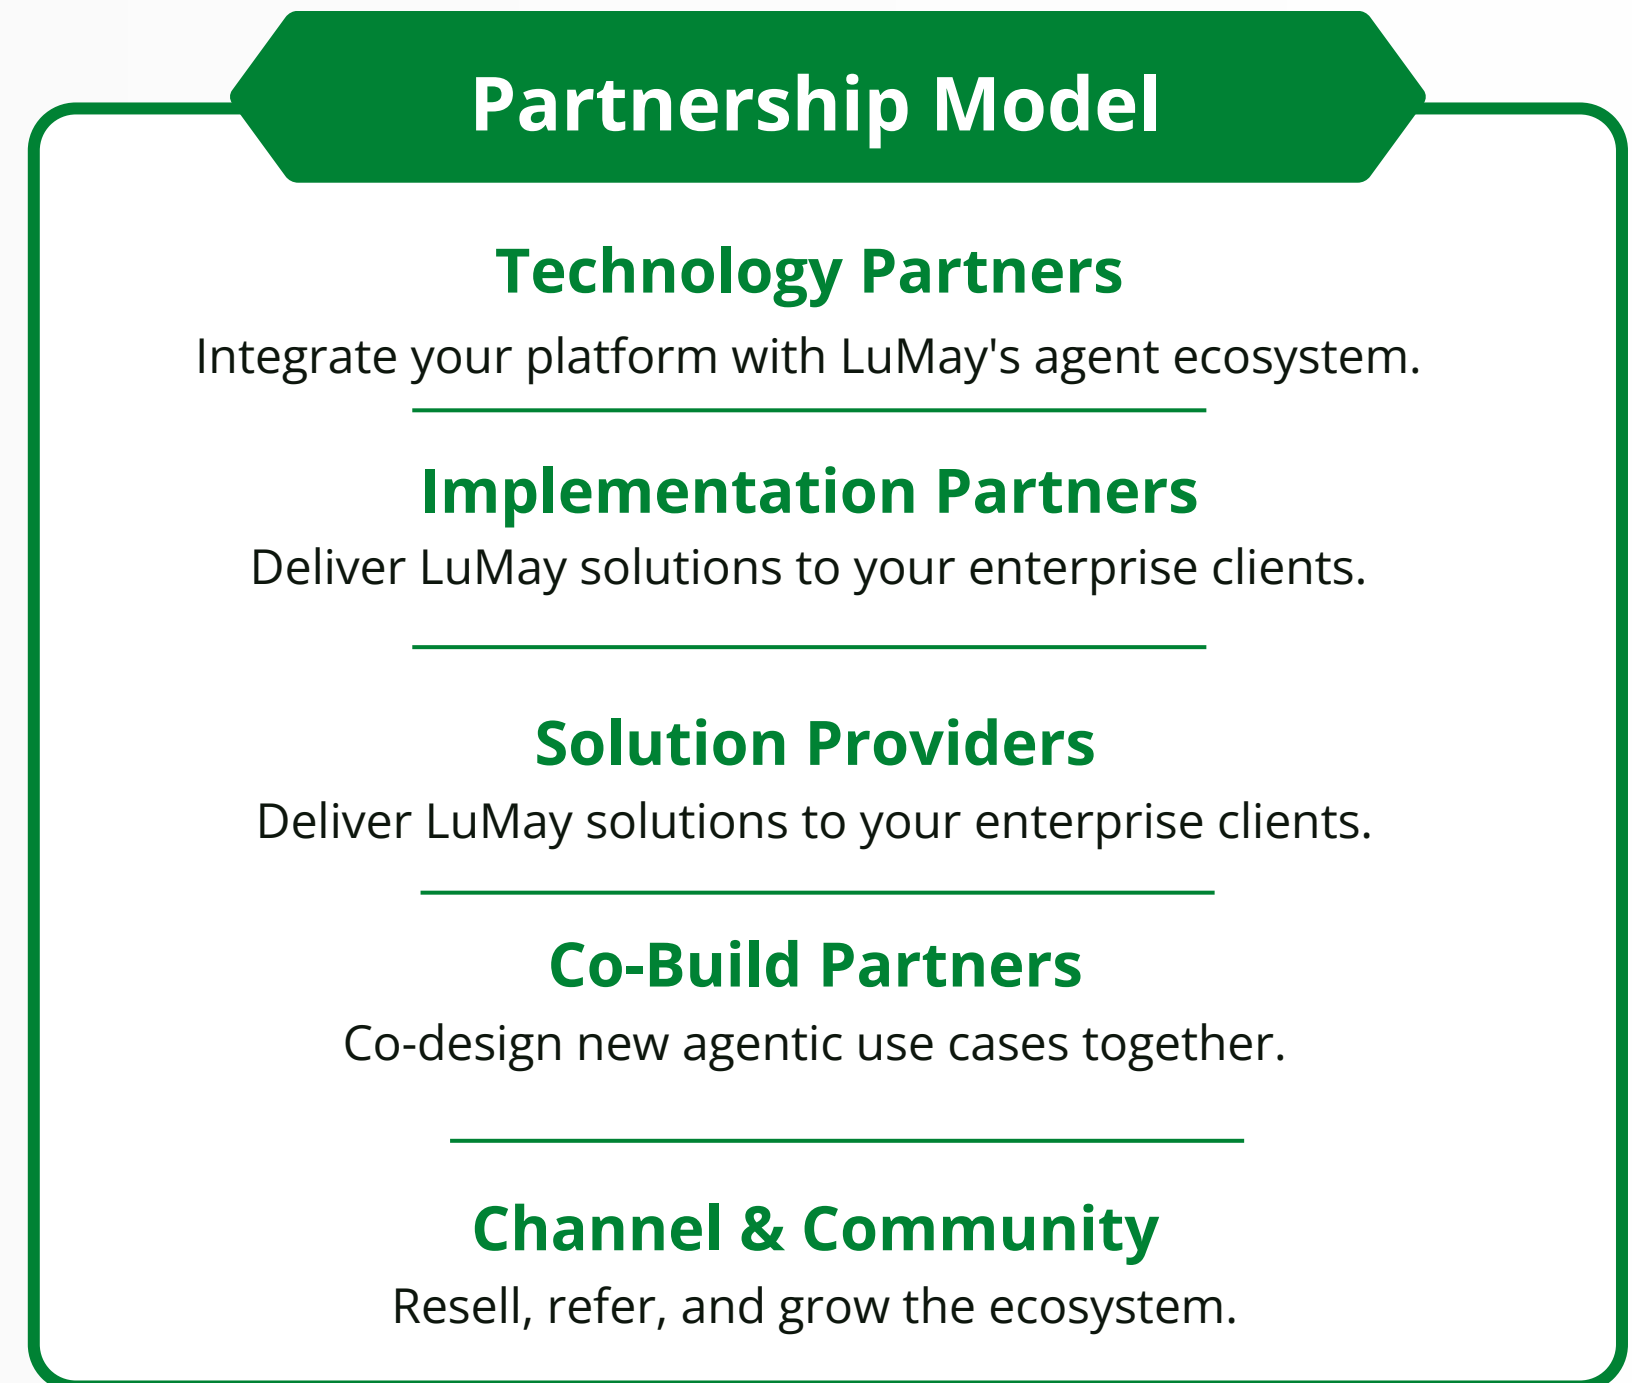

04 Intelligence Flywheel

Cross-platform usage data continuously sharpens every agent - a self-reinforcing flywheel that builds a competitive edge no competitor can replicate from scratch.

SERVICES · EXECUTION SUPPORT · PARTNERSHIPS · ACADEMY

FROM STRATEGY TO SCALED AI IMPACT

LuMay AI services end-to-end — advisory, engineering, implementation, adoption, and managed optimization.

FOUNDER STORY · THE ORIGIN OF LUMAY

BUILT FROM A CONVICTION, NOT A TREND

"Every enterprise I worked with had the same problem — dozens of tools, no connectors, AI projects that never reached production. I built LuMay INC. to solve that permanently."

After decades in enterprise systems and AI architecture, Palani founded LuMay on a single conviction: that the Agentic AI era required a fundamentally different kind of company — one that doesn't just sell software, but owns the outcome end-to-end.

LuMay was engineered from day one with a compounding architecture. Every connector built for one client becomes reusable for the next. Every agent deployed feeds the intelligence flywheel. Every engagement strengthens the platform for all.

The result is not a product company — it is an AI Factory. One where the economics improve with every deployment, where governance is structural not optional, and where clients stop experimenting and start compounding.

Palani Ramasamy
CEO & Founder, LuMay AI

LEADERSHIP

THE PEOPLE BUILDING LUMAY

Experienced engineering and business leaders — deep expertise in enterprise AI, large-scale platforms, and global delivery.

Palanisamy Ramasamy

CEO & Founder, Enterprise AI,
Gen AI & Agentic Platforms

Mike Millard

Sr. VP, Agentic AI Strategy,
Governance & Transformation

Mary Grygleski

Sr. VP, AI Evangelist – Enterprise AI,
Architecture & Market Expansion

Harun Diri

VP, Engineering, AI Platforms
Enterprise Systems & Innovation

Prashant Bhuptani

VP, Global Delivery,
Managed AI Services & Customer Success

Surekha Chikoti

VP, AI Product Strategy,
